Can Deveci

Lead AI Engineer

Contact Information

- **Email**: can.deveci@icloud.com
- **LinkedIn**: linkedin.com/in/can-deveci/
- **Location**: Amsterdam, Netherlands
- **Work Authorization**: Permanent EU Residency

Professional Experience

Lead AI Engineer
Spotzer Digital | March 2021 – Present

- Delivered **AI-driven solutions**, including:
    - Automated **web scraping tools**, **content generators**, and **AI-powered social post creation**.
    - **Ad taxonomy translation** and **business category detection systems**.
    - **Context-aware Website Content Generation** resulting in approx. **$120K** saving per year for the company.
    - AWS costs savings up to **40%**.
- Integrated **AWS Lambda**, **ECS**, **ECR**, **Load Balancers**, **DynamoDB**, and **OpenAI APIs**.
- Specialized in **Vector Databases** (*Milvus*), **Docker**, and AI frameworks (*LangChain, LiteLLM, DeepSeek, Ollama*).
- Built responsive **front-end applications** using **Next.js**, **React**, and **Clerk**.
- Streamlined workflows with **Gitflow**, **Cursor**, **Windsurf**, **Claude Code**, **Codex**, **MCPs**, and reusable **skills**.
- Managed full development cycles (**Agile/Scrum**) with tools like **Jira**, including **code reviews**, **CI/CD pipelines (*Azure DevOps*)**, and **pair programming** sessions.

NLP Engineer
Sestek | October 2018 – February 2021

- Designed advanced **NLP solutions**:
    - **Sentiment Analysis**, **Intent Detection**, **Text Summarization**, and **Text Translation**.
- Evaluated **embedding techniques**, driving product innovation and new features.

Full Stack Developer
Sestek | December 2017 – September 2018

- Developed an **intent detection tool** for banking and telecom industries using **.NET MVC**, **JavaScript**, and **Node.js**.
- Built **RESTful APIs** and **web applications** with **.NET Core**, **Entity Framework**, and **React.js**.
- Optimized **MSSQL databases** through **query tuning** and **indexing**.
- Debugged complex **front-end** and **back-end issues** using **Chrome DevTools**, and **Postman**, ensuring stable production releases.
- Implemented **unit testing** (*NUnit*) and **integration testing** (*Selenium*), achieving **70% test coverage** and minimizing post-deployment bugs.

Skills

AI & NLP Expertise:

- **Framework Mastery**: **LangChain**, **LiteLLM**, **DeepSeek**, **Ollama**, **DSPy**, **Hugging Face Transformers**, **PyTorch**
- **Advanced Techniques**: **Semantic search**, **RAG (Retrieval-Augmented Generation)**, **web scraping** (*BeautifulSoup, Scrapy*), **automated content generation** (*GPT-4o, o1-mini, Claude*)
- **Specialized Systems**: **Vector databases** (**Milvus**, **Pinecone**), **sentiment analysis** (*BERT, RoBERTa*, and many more), **intent detection**, **text summarization** (*T5, BART*)

Software Development:

- **Debugging & Profiling**: **Chrome DevTools**, **Safari Debugging Tools**, **Postman** (*API testing*), **SQL Profiler**, **PyCharm Debugger**
- **Testing & QA**: **Unit testing** (**NUnit**, **PyTest**), **Integration testing** (**Selenium**, **Jest**), **70%+ test coverage**, **Load testing** (*Locust*)
- **CI/CD & DevOps**: **Azure DevOps**, **GitHub Actions**, **Docker** (*containerization*), **Gitflow**, **Terraform** (*IaC*)
- **Frameworks & Libraries**: **Next.js**, **React** (*Redux, Context API*), **FastAPI**, **.NET Core**, **Entity Framework**, **LangGraph**
- **Database Optimization**: **MSSQL** (*query tuning, indexing*), **DynamoDB** (*NoSQL design*), **Redis** (*caching*), **Elasticsearch** (*full-text search*)

Cloud & Infrastructure:

- **AWS**: **Lambda** (*serverless*), **ECR/ECS** (*container orchestration*), **EC2**, **Load Balancers**, **Route 53**, **CloudFormation**, **40% cost optimization**
- **Monitoring**: **CloudWatch**, **Prometheus/Grafana**, **Sentry** (*error tracking*)

Technologies & Tools:

- **Languages**: **Python with 7 years of experience** , (*NumPy, Pandas*), **JavaScript/TypeScript**, **Node.js**, **C#**, **SQL**, **Bash**
- **APIs & Auth**: **RESTful APIs**, **GraphQL**, **Clerk** (*authentication*), **OAuth 2.0**
- **AI/ML Stack**: **OpenAI API**, **Anthropic Claude**, **LlamaIndex**, **Weights & Biases** (*experiment tracking*)
- **Workflow Tools**: **Jira** (*Agile/Scrum*), **Windsurf**, **Cursor**, **Claude Code**, **Codex** (*AI-assisted coding*), **MCPs**, **skills**, **Confluence**

Education

M.Sc. in Electrical and Electronics Engineering
Boğaziçi University, Istanbul | GPA: 3.63 | 2019 – 2022

- **Thesis**: *Design and Implementation of a Response Retrieval and Re-ranking System*
  - Developed a **TF-IDF retrieval pipeline** with **Cross-Encoder re-ranking** for conversational AI.
  - Demonstrated superior performance of smaller transformer models over larger ones in retrieval tasks.
  - Adapted the system for **Question Answering (QA)**, achieving promising results without task-specific tuning.

B.Sc. in Electrical and Electronics Engineering
Boğaziçi University, Istanbul | 2011 – 2017

Key Achievements

Employee of the Month recognition twice, **February 2022** and **February 2023**

Master's Thesis: Developed a state-of-the-art **response retrieval system** (2022).

Published research: *Intent Classification with Short Sentences in Agglutinative Languages* (2020).

Earned **Machine Learning Certificate** (Stanford, Coursera, 2017).

Completed **Natural Language Processing in TensorFlow** course (2020).

Ranked **116th** in National University Entrance Exam (*Top 0.01%*, 2011).

Team Captain, Mediterranean Math Olympics (2008).

Activities

- Volunteer at **Amsterdam Art Week 2023** for **Amsterdam Art Foundation**
- Initiated **charity events** for war victims from several countries
- Organized **cocktail nights** for the company

Personal Information

- **Marital Status**: Single
- **Driving License**: Category B
